

JOHN PAUL B. PRACULLOS

Full-Stack | Cum Laude | Civil Service Professional Eligible
Purok 7, Charito, Bayugan City, 8502 | (0950) 198-6109
| [Outlook](#) | [LinkedIn](#) | [Github](#) | [Portfolio](#) | [Medium](#) | [Startup](#)

SUMMARY

Software Developer with hands-on experience building backend services, microservice architectures, and AI-powered applications using Python, Java, Spring Boot, FastAPI, and PostgreSQL. Experienced in developing scalable APIs, automation workflows, and machine learning solutions through internship and project work. Passionate about building reliable software systems that solve real-world problems.

CORE COMPETENCIES

- Backend Development
- REST API Development
- Microservices Architecture
- Database Design
- API Integration
- Authentication & Authorization
- AI/ML Integration
- System Design
- Problem Solving

TECHNICAL SKILLS

- **Languages:** Python | Java | JavaScript | TypeScript | Dart
- **Backend:** Springboot | Laravel | FastAPI
- **Frontend:** React | Vue.js | Flutter | React Native/Expo
- **Database:** PostgreSQL | MongoDB
- **DevOps & Tools:** Docker | Git | Postman
- **Authentication:** JWT | OAuth2 | Keycloak
- **AI/ML:** Tensorflow | OpenCV | Numpy | Pandas | Matplotlib

INTERNSHIP EXPERIENCE

Sindbad Tech February 2026 - May 2026

- **Backend and Automation Development Intern**
 - ★ Developed backend services and automation workflows using Python and FastAPI to support real-time financial operations.
 - ★ Processed tick-level and time-sensitive market data while maintaining reliability and accuracy.
 - ★ Worked effectively in a remote international team, improving communication, adaptability, time management, and problem-solving abilities.

PROJECTS

- **Digital Agriculture Insurance & Disease Detection Platform - Capstone Project** | [Github](#)

Tech Stack: Spring Boot, FastAPI, PostgreSQL, Flutter, Vue.js, TensorFlow

- ★ Developed a microservice-based platform consisting of API Gateway, Authentication Service, Insurance Service, and AI Detection Service.
- ★ Built an AI image classification model using EfficientNetV2 and TensorFlow for rice disease detection.
- ★ Developed web and mobile applications used by agriculture personnel and farmers.

- **BizNest – Geo-Intelligent Investment Platform for Philippine Cities** | [Startup Project](#)

Tech Stack: FastAPI, PostgreSQL, React, Maplibre, Orval, Pnpm

- ★ Co-developed a geo-intelligent platform designed to help investors identify and evaluate investment opportunities across Philippine cities through data-driven insights.
- ★ Collaborated with a startup team to design scalable application features, improve user experience, and support business decision-making through geographic intelligence.
- ★ Contributed to database design, API development, and system architecture while following modern software development practices and Git-based workflows.

ELIGIBILITY & CERTIFICATIONS

Cum Claude	2026
AWS Cloud Practitioner Essential	2026
Civil Service Profession Eligibility	2026
World Wide CTF 2025 Participant	2025
AI/Machine Learning Webinar – Asia	2024
Open RAN Academy & USAID	

EDUCATION

- ★ **Bachelor of Science in Information Technology** - Caraga State University(2022 - 2026)
- ★ **Senior High School (HUMSS)** - Agusan Del Sur College (2020 - 2022)
- ★ **Junior High School** - Bayugan City Comprehensive High School (2016 - 2020)
